## *Mountain Grown Plants*

**EXCLUSIVELY WHOLESAL**

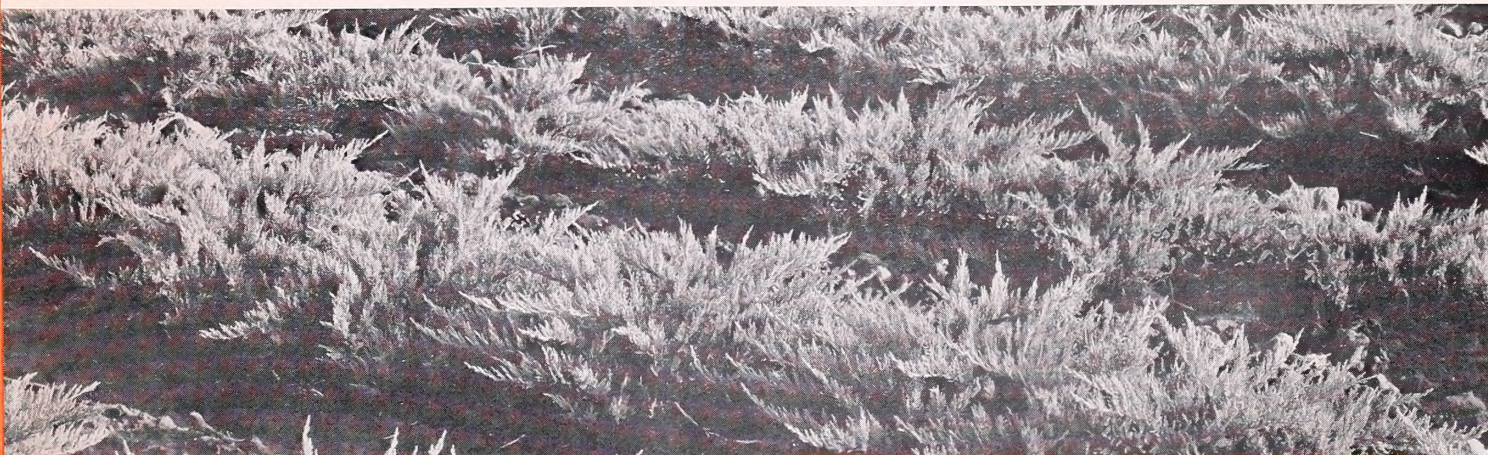

These superior quality "Mountain Grown" evergreens were grown exclusively for you . . . to please the eye of your customers and give them a lifetime of satisfying landscape beauty.

Mountain Grown trees and evergreens are root pruned to produce fibrous compact root systems. Top-trimming gives heavier body and shapely form to upright specimens.

You can profit more by stocking and selling "Mountain Grown" plants . . . for over fifty years the most accepted brand in the Intermountain West. Now grown exclusively for the trade.

**BERCKMAN'S GOLDEN ARBOR VITAE**  
30 inches tall — heavy body — perfect form

**JUNIPER TAMARISCIFOLIA**  
Most popular Dwarf Spreading Evergreen

*P.W.'s  
Mountain Grown*

## **Broadleaf EVERGREENS**

Contemporary architecture requires the informal beauty of broadleaf evergreens. Their use in landscape plantings has increased ten times in only a few years. In our list you will find all the varieties best adapted to soils and climate of the mountain states. You are always welcome to visit the nursery where you can see them growing.

**MAHONIA COMPACTA**  
Interesting foliage, neat habit,  
dependably hardy.

*P.W.'s  
Mountain Grown*

## **TREES** **Fruit and Ornamental**

In addition to the popular fruit varieties, flowering ornamental shade trees have for many years been a specialty at Porter-Walton's. Male or seedless trees and smaller growing flowering varieties are particularly popular. The potential market for trees has never been greater than it is this year. Offer your customers sturdy Mountain Grown trees with well developed root systems.

You are sure of fresher stock and lowest freight rates when you buy from your nearest supplier — Porter-Walton Company. Trucks loaded at the nursery for pick-up or freight shipments.

**Two year old Cherry Trees**  
ready for digging and delivery.

**PORTER-WALTON COMPANY**  
Salt Lake City and Centerville, Utah

**YOU ARE AS NEAR TO US AS YOUR POSTOFFICE**

All mailable items unless otherwise specified are prepaid to your Post Office at prices quoted in this catalog. Seeds in quantities, nursery stock and other items too large and heavy for mailing are quoted f.o.b. Salt Lake City, Utah, and are forwarded at your expense for transportation charges via the most convenient and economical way: Rail Freight, Motor Freight, or Express, specify whichever is best for you. Send no money for transportation charges, which will be collected when delivery is made, unless yours is a prepaid station where there is no agent. Unless you specify the way, we will use our best judgment in forwarding.

Please Use Catalog Numbers, together with name of the article, size, quantity, and price in making up your order. Also, where possible, use this order blank which folds into a self-addressed envelope. Extras furnished on request.

When necessary to make additional explanation or inquiry, please do so on a separate sheet of paper. You may send money conveniently and safely in the form of a post office money order, express order, or your personal check. Please do not send stamps.

Please send remittance in full with order, as we are without facilities for credit accounting.

C. O. D. shipments are not advisable—Because of the wide variation in the proper planting time of seed and nursery stock, it is most often necessary to forward in separate shipments. The weight of the separate parts determine the most economical way to ship, whether via freight, express or mail. Under such conditions it is difficult to handle these divisions promptly without duplication of C. O. D. fees. Then also a deposit of at least 25% is required before shipments can be made.
